Outsourcing. Done right

Welcome to Global Outsourcing. With over 20 years of experience, we ensure high-quality products delivered on time and on budget.

UK: At Global Outsourcing we help companies in all aspects of outsourcing - from the initial choice and handling of subcontractors - to project management, quality control and logistics. With our wide network of qualified partners, we offer a broad array of outsourcing areas that include structures in steel, stainless steel, casting, welding, cutting, bending, punching and much more.

We put great effort in creating and maintaining long term relationships with both our customers and our partners. With know-how and experience, we ensure that our outsourcing partners deliver high-quality products within the time frame and at the right price. By offering outsourcing to several countries worldwide, including Poland, Slovakia, Russia and China, we are confident that we can also help your company in a successful process.

DK: Global Outsourcing hjælper virksomheder i alle aspekter af outsourcing. Fra udvælgelse og håndtering af underleverandører, til projektstyring, kvalitetskontrol og logistik. Gennem vores netværk af kvalificerede samarbejdspartnere tilbyder vi en bred vifte af outsourcing muligheder. Herunder konstruktioner i stål, rustfrit stål, støbning, smedning, svejsning, skæring, bukning, stansning og meget mere.

Vi lægger stor vægt på at skabe og fastholde langsigtede relationer med både kunder og samarbejdspartnere. Gennem vores store know-how og erfaring sikrer vi, at vores outsourcing-partnere leverer produkter af høj kvalitet inden for den aftalte tidsramme og det aftalte budget. Ved at tilbyde outsourcing til flere lande verden over, herunder Polen, Slovakiet, Rusland og Kina, er vi overbeviste om, at vi også kan hjælpe din virksomhed til en vellykket outsourcing proces.

High quality products

“At Viking Life-Saving Equipment we need a partner that understands the safety industry and the special needs we sometimes have. For us, a high product quality is essential and we cannot afford to compromise the manufacturing of our products. In Global Outsourcing we have found a loyal, flexible and quality oriented partner.”

Per Staal, at Viking Life-Saving Equipment

Our toolbox

Offshore & maritime

UK: To the offshore and maritime sector we supply pre-assembled steel structures, life saving- and rescue training equipment and fully assembled personnel transfer baskets.

DK: Til maritim- og offshore sektoren leverer vi præmonterede stålkonstruktioner, livrednings- og træningsudstyr samt komplet monterede mandskabskurve.

Agriculture

UK: At Global Outsourcing we supply pump parts, chain wheels and complete machinery to the agriculture segment.

DK: Global Outsourcing leverer pumpe dele, kædehjul og komplette maskiner til landbrugssektoren.

Steel construction & Machine building

UK: Global Outsourcing supply machine constructions, “turn-key” projects, adapted containers, produce balustrades and balconies and perform design and calculation tasks.

DK: Global Outsourcing leverer maskinkonstruktioner, „turn-key” projekter, indretter containere, producerer rækværker og altaner samt udfører design- og beregningsopgaver.

Recycling

UK: A growing global focus is on environmental protection and recycling. At Global Outsourcing we supply forged, machined and casted products such as shafts, pump houses and fly wheels.

DK: Et voksende globalt fokusområde er miljø og genanvendelse. Vi leverer forskellige smedede, støbte og bearbejdede produkter, som f.eks. aksler, pumpehuse og svinghjul.

Woodwork & furniture industry

UK: We have worked with several different companies to supply products to the woodworking industry. The products include wooden toys, furniture frames and decorative art crafts.

DK: I samarbejde med vore partnere har vi udarbejdet en lang række produkter til træ- og møbelindustrien. Herunder trælegetøj, møbelstel og kunsthåndværk.

Why work with us?

Hvorfor samarbejde med os?

UK: There are a lot of advantages in outsourcing. You can free up capacity in your own production, adjust production to the market needs and increase overall production without investing in new machinery or buildings. Ideal for components that take up a lot of production hours. But outsourcing can be a complicated process. Which country should you choose? How much time should be allocated to project management? And how do you ensure the required product quality? At Global Outsourcing we can help you choose the right people for the project and ensure a smooth and trouble free process. Our goal is clear: to get satisfied customers through a strong network and high quality services. Feel free to contact us and see how we can help your company succeed in outsourcing.

DK: Der er en lang række fordele ved outsourcing. Du kan frigøre kapacitet i din virksomheds egenproduktion, tilpasse produktionen til svingende markedsbegreb og øge den samlede produktion uden at skulle investere i nye maskiner eller bygninger. Ideel til produktion af komponenter, der kræver mange produktionstimer. Outsourcing kan være en kompliceret proces. Hvilket land skal vælges? Hvor meget tid skal der afsættes til projektstyring? Og hvordan sikres den ønskede kvalitet? Global Outsourcing vælger de rette samarbejdspartnere til projektet og sikrer en så smidig og problemfri proces som muligt. Vores målsætning er enkel: at få tilfredse kunder gennem et stærkt netværk og produkter af høj kvalitet. Du er velkommen til at kontakte os og høre nærmere om, hvordan vi kan hjælpe din virksomhed med succesfuld outsourcing.

A smooth process

“At SVITZER we have worked with Global Outsourcing in the manufacturing of safety and training equipment for our safety and emergency training activities. Global Outsourcing have been innovative, cost conscious and our business has expanded since starting cooperation with Global Outsourcing. Mainly because we can maintain focus on our core business. The process has been smooth, the quality of the final products is high and Global Outsourcing has been very flexible in our cooperation.”

Lars Christian Zöhner, at SVITZER Safety Services

Extremely satisfied

“Stema Engineering develops and manufactures automatic machinery for rebar processing to the construction industry and the company is the third largest in the world in its field. We have worked with Global Outsourcing since 2006, and are extremely satisfied with both their product quality and delivery performance.

Moreover, the owners are very competent technicians who engage in fruitful interactions about the technical design and production optimization. I can certainly recommend Global Outsourcing as a supplier.”

Ole Skelbæk-Pedersen, at Stema Engineering
